

CYNTHIA NARDOZI

Sequoia Teacher

Cynthia Nardozi is a highly motivated and devoted professional with many years of teaching experience. Over the course of her career, she has taught mathematics at every high school level within the youth and adult sector. Her experience as a mathematics teacher includes teaching math within the regular and International Baccalaureate programs, enriched math, math within the adult education programs and math for students with learning difficulties. Over this time, she has also taught all levels of high school mathematics privately to individuals and very small groups. Cynthia has taught other subjects including **English, Ethics, History and Geography** for students with learning difficulties.

As a teacher, Cynthia loves to push the boundaries of the curriculum, opting to engage students by allowing them

to discover how the subject matter is used in pertinent worldly applications. She is not only very passionate but has a unique propensity to cater to the needs of different types of learners. Cynthia motivates her students to think outside of the box and helps her students view problems from different angles and perspectives.

As a student, Cynthia attended Dante Elementary School and graduated from Vincent Massey Collegiate. In CEGEP she studied Health Sciences at Dawson College. In University she studied and obtained a Bachelor's degree of Science in Mathematics as well as a Bachelor's degree in Education at McGill University, where she also studied Physiology. A lifetime Montrealer and a product of the English Montreal School Board, Cynthia is proud to be a teacher in the EMSB and in this community.
